

What is the PE and Sport Premium?

In April 2013, as part of the Olympic Legacy Programme, the Government announced that it would be providing additional funding to improve the provision of PE and sport in primary schools.

This initiative has been devised to improve the quality and breadth of PE and sport provision through direct coaching of children, professional development and improved access to resources. Ideally this will lead to increased participation in sport across the primary age group as well as promoting healthy lifestyle choices and a competitive attitude.

The PE and Sports Premium is an additional layer of funding received by schools. It is ring-fenced so can only be spent on improving the quality of PE and School Sport. It has been doubled to support schools to implement the government's Obesity Strategy and to support the health and wellbeing of all young people in the school.

How much does our school receive?

There is a total grant for this financial year is £14,810. We receive this in two instalments, the first from April to August and the second from September to March until 2020. The grant comes from 3 government departments:

- Education
- Health
- Culture, Media and Sport

How is the Sports Premium money spent?

This year we have chosen to work with One Touch Football and the local School Games Organiser (Terry Plumb). One Touch Football work with us to deliver high-quality extra-curricular Football and Multi-skills lessons. In addition the Key Stage 2 staff work with them to deliver a games lesson each week. The School Games Organiser brings together over 20 of the local primary schools in order to organise inter-school competitions, in which the school participates.

We focus our work in 5 areas:

1. **High Quality PE.** We invest in PE mentoring for our school staff. As part of our continued commitment to help the children enjoy and make accelerated progress within PE we understand that it is essential to invest in our staff's professional development. Accordingly we use our Sports Premium budget to ensure all staff are confident in delivering inspirational and aspirational PE lessons across the PE curriculum.
2. **Competition:** At St Anne's we believe that healthy competition is vital to high sporting achievement. Our grant enables us to offer the children access to a wide range of both able-bodied and as well as inclusive sporting competitions.
3. **Health and Wellbeing:** We are working hard to ensure every child is physically active for a minimum of 30 minutes a day, in accordance with the Chief Medical Officer's guidelines. This is not only limited to PE lessons. We aim to provide every child with a sporting opportunity.
4. **Resources.** We ensure that all our equipment is appropriately sized, in good working order and of a high standard. This enables the children and coaches to focus on skills development rather than working around ill-fitting or damaged equipment. Therefore, part of the budget each year is spent on buying additional sports equipment as well as

maintaining our existing equipment. We also believe that playtime is an important opportunity to develop a healthy approach to life. Accordingly, we provide a range of equipment to use at break and lunch times as well as giving Year 6 children training as playground leaders in order for them to lead KSI playtimes.

5. Community: Each year Key Stage 2 children are given the opportunity to participate in a Sponsored Rotary Club Swimathon.

What is the impact of Sports Premium?

The improvement in our sports provision can be measured in three ways: our participation in inter-schools competitions, the attitudes of the children to sport and the quality of our PE provision.

1. Participation: Our school is now fortunate enough to be able to send teams to participate in over 9 events each year. In addition, the school provides a Multi-Skills and Football Club once a week at lunch times.
2. Attitudes: As direct a result of being able to provide a broader provision in PE, the children are able to appreciate the wider world of sports beyond those they would traditionally have been exposed to. Our children are able to achieve well in a variety of sporting events resulting in an improved attitude to sports in general. In a recent survey 96% of children stated that they enjoyed PE and 69% had the ambition to represent the school in some sporting event.
3. Quality: The quality of our equipment has increased dramatically over the last 3 year as well as the quality of our teaching and the confidence of staff to deliver good PE lessons. The head coach at One Touch Soccer was observed by Ofsted delivering an "outstanding" lesson.

How will the impact be sustained?

School staff receive support and training to embed some of the new ideas in to their own delivery. New relationships are being created with local schools so that we can continue to work together. Children are signposted to community opportunities so they can continue to pursue any new-found interests.

How are the Governors involved?

The School Governors receive a report from the Headteacher which covers the above questions. Governors are invited to visit and monitor the impact of our premium at a school level and also at our shared events.

PE AND SPORTS PREMIUM

PE and Sports Premium spend for 2015-16

Purpose	Activities	Cost	Expected Impact
